Meeting SAT Computer Science 22 June 2022

Minutes Approved

Present:

- Dan Witzner Hansen (HoP BSWU)
- Marco Carbone (HoP KCS)
- Therese Graversen (HoP BDS)
- Patrick Bahr (HoP KSD)
- Theodor Christian Kier (Student rep., BSWU)
- Anne Brix Damgaard Fransen (Student rep., KSD)
- Sara Gjerløv (Observer, Study and Career & Guidance)
- Mette Holm Smith (Observer, Prog Coor BDS + KDS)
- Allette Bjørn Bundgaard (Prog Coor BSWU + KCS) (Minutes)

Absent:

- Sofie Kramshøi Nielsen (Student rep., KSD)
- Juraj Septák (Student rep., BDS)
- Paolo Tell (Guest, faculty)
- Jesper Bengtson (Guest, faculty)
- Marc Kellaway (Observer, Prog Coor KSD)
- Luca Maria Aiello (HoP KDS)
- Nynne Grauslund Kristiansen (Student rep., BSWU)

Minutes:

1. **Approval of agenda:**
   Theodor chairs the meeting.
   Agenda approved.

2. **Approval of minutes from meeting June 1, 2022:** Appendix 2A.
   Minutes has not been ready until lately. Thus, they are up for approval at this meeting.

   Comment received by e-mail:
   Point 4: Last sentence: "*SAT asks Sofie to gain more info and present this to Lene Rehder.*" changed to: "*SAT asks Sofie to present this issue to Lene Rehder.*"

   Minutes approved with the change.

   Sara informs that the issue in point 4 will be discussed in SAP and Sofie will be contacted.

3. **Information:**
   None.

4. **Update from study programs:** / Students.
   BSWU: Theodor:

   - Course Introduction to Machine Learning: This spring semester, participating students found the workload on the course massive. Warning from taking the course in the autumn

is now circulating among students.

Comments from Marco:

Marco discussed the course with course manager and will do again. The course is mandatory on KCS from next autumn, and it is important to deal with challenges now.

Comments from course manager (CM):

50 students registered for the course, A little more than half of them showed up for lectures as a maximum, for exercises even less.

CM knows, workload seems huge, but the course has been restructured over spring. After the exam, course manager received reports from students that the workload showed to be worthwhile. Course manager does not think the expected workload exceed 11,8 hours per week as is the average time students should expect to spend on a 7,5 ECTS course.

- Students liked the course Ethical Hacking.

KDS, Anne:

- The list of electives in the autumn are not as interesting as in spring.

6. **Meetings in autumn semester 2022:**
When should AT CS meet in the autumn semester 2022?
Afternoon meetings on a fixed weekday have worked well for a couple of semesters, should we keep this?

No weekday suits everybody. Monday and Friday afternoons seem to be best – or a mix between them.
SAT agreed that the first meeting should be Monday 14-15.30 in the beginning of September, and that we will settle on a solution by then

7. **AOB:**
None.
