

Agenda for Subject Area Team Games meeting

12 December 11.00-12.00 in 4A05

Participants

- Martin Pichlmair
- Paolo Burelli
- Hanna Wirman
- Hajo Backe
- Eva Steensig Hauerslev
- Trine Møller
- Lior Maynard
- Peter Bech Astrup
- Rasmus Klintsø Christensen
- Clovis Andréas Victor Lebret
- (Saskia) Joanna Rauhut

Agenda

1. Approval of agenda

Agenda approved.

Adding an item 2, welcoming the new students and Rune.

2. Welcome new students & Rune

Round of introduction and a little chat about the SAT.

3. Information

- Study Board
 - Update to the Quality Policy – suggestion to use the unemployment numbers only. Then, SAT talked about the measurement process, the numbers, and their meaning for the programme.
 - SAT briefly touched on the 22.5 ECTS requirement that is being introduced spring 2023.
- Events
 - Winter Games early February. Sign-up in the first week of the semester and the event two weeks after. Hybrid or online?
 - The stream is important for outsiders. It worked well last year.
 - Maybe remote this year for the winter games – and then on-site or hybrid in the summer.
- Students
 - Students talking about project sizes – how much to write?
 - There is a site on ITUstudent, where you can find guidelines especially for Games.
 - On another note, there are some difficulties with the 15 ECTS company collaborations – the 7.5 ECTS projects do work, less time in the company, more time to do a good project.
 - Plans to do industry/public talks again this year?

- Don't know about any concrete plans, but it is something that Study Lab also can do
- Lior has a contact in EA – can we make a partnership or something for the Games students?
 - We can have them present at the thesis prep event – otherwise, it could just be an email to other students that they can do projects with them. But maybe study lab can arrange something, or any faculty can organize an event – as long as there is no money involved. It could also be a student with the backing of a faculty.
- Study Career and Guidance
 - No news

4. Knowledge sharing about the admission process

There will be a few changes for the admission process, admission 2024.

Would it make sense to introduce a crash course like on SWU and SD? That is something we could think about.

5. Info on the past Employers' Panel meeting

Meeting with the employers' panel Games a couple of weeks ago. They are very interested in professional courses and internships – the latter we unfortunately cannot do. Also, a proposal to do a female mentorship programme – something we will look into.

13. AOB

Nothing for this item.
