## Agenda

### 1. Approval of agenda

### 2. Course Evaluation spring 2023

*Attachment: Course Evaluation Report – Spring Semester 2023-1.pdf*

Follow up on extra meeting about course evaluations with Hanna, Rune, Joanna, and Clovis on 23 August 2023. This meeting solely focusing on course evaluations was the first of its kind and brought about to create more transparency in the course evaluation process.

Mentioned courses were Data-Driven Design and Development, Foundations of Game AI, and Game World Design. CM's have received the feedback, and Sebastian, Paolo, and Hajo will represent the courses.

### 4. Programme Specific ILOs for Final Projects

*Attachment: ILO's for Final Projects, Games.*

ITU currently has the same intended learning outcomes (ILOs) for all bachelor projects, theses, and the final project on the professional master.

The external examiners have continuously pointed out the need to have a clear distinction of the different levels (BSc, MSc and Professional Master), and preferably also a distinction between the different study programmes, for them to be able to assess the exams accordingly. So, by request from the External Examiner Corps, it has been decided to implement programme specific ILOs for all final projects from the spring semester 2024 and forward.

All new ILOs will be presented in the respective SATs and then taken to the Board of Studies for approval.

#### **5. Study Programme Report 2023 – revisit**

The Study Programme Report is written by HoSP in the spring, and the document has been presented to SAT previously. This is an annual task.

To bring more life into the report, we check the status of the document 1-2 times a year in the SAT.
