

Meeting SAT GAMES 30-10-2025

Present:

- Rune Kristian Lundedal Nielsen
- Enrico Giuseppe Aiello
- Kristóf Lénárd
- Hajo Backe
- Pawel Grabarczyk
- Krystof Marasek (guest)
- Marc Kellaway (minutes)

1. Approval of agenda

The agenda was approved.

2. Information

HoP/ProCoor

- **Status on the database**
 - Still in process – a link has been shared, and people have added games. Enrico has also spread the word with the current cohort for Makin Games.
 - Genre is tricky.
 - Programmes have no websites at ITU, so where should the base live?
 - GameLab might get a website soon, so perhaps this could be a solution?
- As part of the broader reforms of master programmes in Denmark the ITU top management will soon decide on cuts in the intakes of the master programmes. Since the upcoming new industrial master programmes does not have any overlap with the GAMES programme, and therefore – unlike some of the other programmes – are not expected to draw applicants away from GAMES, we do not expect cuts. Time will tell whether this theory holds.

Students

- Nothing new – courses seem to be proceeding as usual with no outstanding problems. DAIDU goes well too.
- Student representatives will spread the word re. the upcoming election to ensure student representatives in SAT GAMES for the new year

Study Board

- For last meeting was planned a discussion on how to handle when there are no items on the agenda, but since only two student representatives were present the discussion was postponed.
- Delayed grades was discussed. Does not seem to be an issue at GAMES though, probably due to the exams being smaller and/or oral.

Events

- Get-together event for 1st and 2nd years are being planned.
- Also upcoming: StudyLab play test and a lot of game jams.
- Please mention upcoming jams to the teachers – love to know what is going on and might what to pop by.

3. AOB

- At the next meeting we should talk Winter Games and outreach. Marc will put it on the agenda.
