USING THE PROJECTOR

Please have patience when operating the projector.

It takes some time for it to respond to buttons being pressed.

1. Touch the touchscreen, start.

2. Press on the appropriate display.

3. Sound PC. Volume on the Right.

4. Microphones tab. Microphone control.

5. Turn off the system, when done using it. Leave the room in the same condition as you want to receive it in.

Best Regard FM.
