

Contingency Plan

January 2025

IT University of Copenhagen

Security policy and precautions in the event of unusual incidents at the IT-University in Copenhagen.

Introduction

Facilities Management ensures the practical handling in emergency situations and handles the introductory dialogue with relevant authorities.

Employees in Facilities Management are trained in first aid and in safety systems and are first responders to emergencies.

Anyone present at the university has a role in the event of an incident, in terms of being aware of their surroundings and making sure that they have familiarised themselves with the general guidelines and evacuation procedures.

Thank you for helping keep ITU safe.

Malene Holm Smed

Head of Facilities Management

THE CONTINGENCY PLAN – QUALITY ASSURANCE AND AUDIT

Quality assurance

As a guarantor of the plan's quality, structure and content, a contingency group has been set up.

At the creation of this plan, the following people were involved in the work:

Malene Holm Smed (Head of Facilities Management)

Torben Sonne (Operations Manager)

Tina Rasmussen (Team Manager)

The group should hold an annual status meeting in connection with the annual review. The main tasks are to develop the plan and ensure that all information is up to date.

The plan is updated and maintained once a year.

Implementation and information for employees

It is the responsibility of the Emergency Response team that the plan is available to all employees in relevant form, including on the internet.

Significant changes must be notified to IT-University's Head of Facilities Management at the earliest opportunity. Head of Facilities Management issues a new version of the plan after processing the corrections.
