Click on the appropriate link to download the configuration file for your version of Mac OS.

## **Install** CFG file

#### Open your Downloads folder and double-click to run the configuration file.

Click on "Continue" to start the installation.

#### 2.2

2.1

Fill in your login information by using your ITU username (including "@itu.dk") and ITU password.

Then, click on "Next".

Example:

My username is abc, I will type abc@itu.dk

 Profiles
 Q. Search

 ?

2.4

Again, fill in your login information by using your ITU username (including "@itu.dk") and ITU password.

Then, click on "Next".

Example:

My username is abc, I will type abc@itu.dk

It is <u>not</u> needed to type your ITU mail and password for the third time.

Therefore, just click on "Install".

|       |                     | 🛞 Enterprise Ne                 | etwork |  |

| Enter | settings for the en | terprise network "Wired Network | M      |  |
| S     | ystem Username:     | Optional                        |        |  |
| s     | system Password:    | Optional                        |        |  |
|       |                     |                                 |        |  |
|       |                     |                                 |        |  |
|       |                     |                                 |        |  |

Type your Mac's local user ccount username and password (<u>not</u> your ITU username and password)

# **Verify** Wi-Fi connection

Verify that you are connected to the wireless internet.
