2. Information

HoSP & EVA

- No updates

Study Board

- No updates

Events

- Winter Games planned for 2.2.2023 (tentative), Hajo will host. Online for audience, offline possibility to present at 2F13.

Students

- Students interested in joining Amaze. Hanna suggests bringing in PROSA to support and we make them a game that they have requested. Hajo suggests a game jam format to screen the best idea.
- Add "Student organisations intro" as an agenda item for next SAT
- Mid-semester check-in results from SAT student members
 - Students do not know about the second semester which is unfortunate as they do not arrive at the Townhall meetings
 - Summer courses interest: 50/50 % interested
 - Feedback on individual courses (complaints about programming for designers that feels disorganised, tech track game programming is difficult, satisfied with Games and Culture and Making Games)

- Be clearer about alternative courses to Programming for Designers in the intro days 2024
- More feedback: Disconnect between theory and practice between courses
- Thesis work
 - Include some details about Thesis work in the 1st year Spring Townhall
 - Request more info about how to collaborate with a company for a thesis
 - Previous students' thesis work as examples
 - ITU Student info is scattered. administrative process of thesis work is not in one location
 - Games page with links that are relevant to thesis work
- Women's mentorship programme lessen the expectations for students; adds to the already full plate
- DADIU disorganised
