

## Make sure you have the newest version of the Device Monitor

The option to test Device Monitor is to make sure you have the newest updated version.

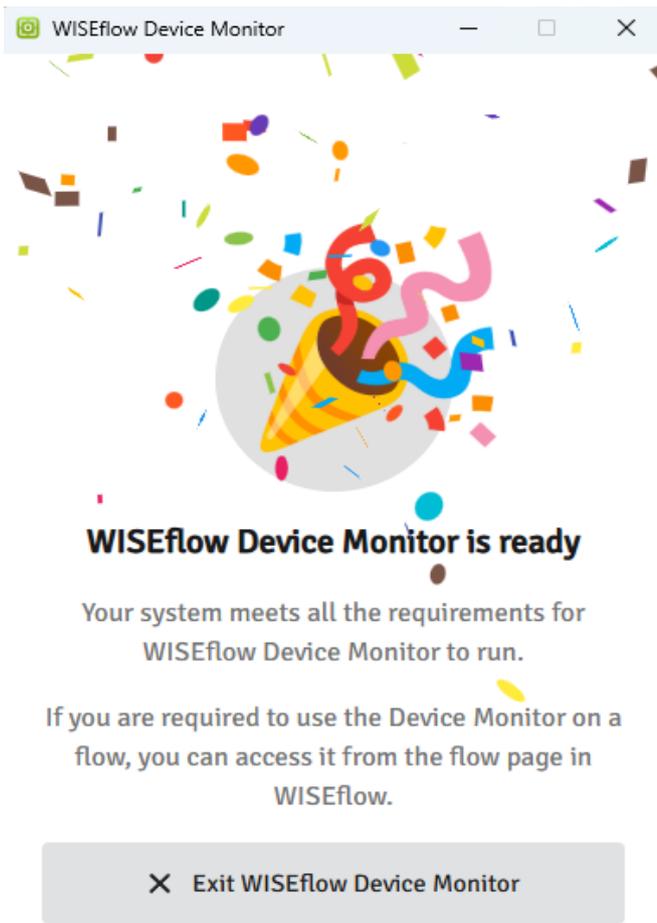

*It is recommended that you check this before each exam!*

**Scroll down** until you reach the WISEflow Device Monitor

## Click “Test monitor”.

Hopefully you will be ready for the exam otherwise download again.

Please note that if you've clicked on “Test monitor” make sure that you close it again, otherwise you can't open the Device Monitor.
