

Withdraw a submission in WISEflow

For written exams on premises this is not a possibility

For exams where you submit an exam assignment you can choose to withdraw your submission if you are within the deadline for the exam. Just click withdraw submission.

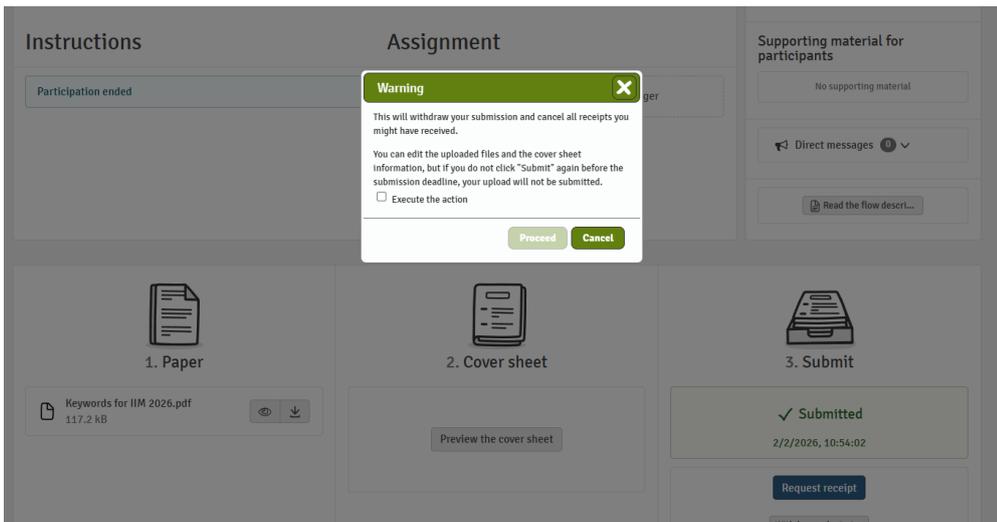

A pop-up box will appear:

This will withdraw your submission and cancel all receipts you might have received.

You can edit the uploaded files and the cover sheet information, but if you do not click “submit” again before the submission deadline, your upload will not be submitted.

Mark Execute the action and click “Proceed”.

Now your upload is available for you again, and you can choose to Download, Edit or Delete the document. To finalise the submission and the flow remember to submit your uploaded document.
