AGENDA

1. Approval of agenda

Agenda approved.

2. Welcome to new student members

Rune welcomed the new student representatives. Everybody introduced themselves, and the current members introduced the work in the SAT.

3. Information

- HoSP & EVA
 - Registration period just ended – seats are now being distributed, and the plan is to make the distribution available to students just before Christmas.
- Study Board
 - The ILO's for final projects, theses, and bachelor projects is on the agenda.
 - The communication of the new ILO's – can they accessed a page that is easier to find? A lot of clicks and a pdf etc.
- Events
 - Two ideas for Trine's career workshop
 - Navigate the job search when just graduating but needing experience according to the job add
 - PhD opportunities
 - Students will contact Trine directly

- If you have industry contacts that could be used for the Winter Games, then feel free to forward the info to Djordje and Pawel
- Copenhagen Gaming Week: Students can apply for a small space at the convention.
- Students
 - Programming for Designers: students experiences miscommunications about exam requirements and about the curriculum. Some things have been changed during the course by talking to the teacher. There is a meeting with the CM today. Rune will follow up afterwards.
 - DADIU students done and exhausted and looking forward to Christmas.
- Study Career and Guidance
 - There are two new colleagues in the team

4. AOB

Hajo had lunch with the DoE, who just went to a DADIU meeting. Hajo brings a poster and other stuff to the Game Lab.
