5. Town Hall Meeting-Triggered Actions

Talk about some points that were raised at the Town Hall Meeting

- The tracks do not work together at all in the 3rd semester. Could we do something linking the 7.5 ECTS specialisation courses in the 3rd semester? Some kind of collaboration? We will look into that but there will anyway be the CROSSDIT mandatory course
- A group of students (or all) should have admin rights. The rights should not give you the possibility to destroy the computers.
- We will need more computation resources for machine learning master theses
- Coder Dojo: they should not tell students to leave if there are free computers
- SAT Games will need you as a student rep. Information here: https://studentcouncil.dk

6. Copenhell Jam

Find a good date in spring.

13. Any other business
