6. Recap on the previous semester and exam period

Ordinary exam hand-in

- A little under 50% handed in for Games & Culture
 - Is there a difference between tech and Design?
 - We do not know; maybe Qlik sense can tell us
 - Seems like it is the individual exam that always suffers

Making Games

- Feedback from students
 - Some students felt they were not well enough equipped for writing the different reports
 - Could be more varied hand-ins in prototyping phase
 - User-testing methods could be an assignment
 - Feedback was not good at the exam
 - Requirements not really clear enough
- Response from SAT
 - Some things could have been better
 - Thank you for the suggestions
 - Exam form might be changed – it is not working so well.
- Action point: Martin and students will meet and talk about the course and exam.
