

Meeting SAT Computer Science 8 October 2019

Agenda:

1. **Approval of agenda:**
2. **Approval of minutes:**
3. **Information:**
4. **Update from study programmes:** / Students.
5. **Renaming of course: Mobile and Distributed Systems on SWU and SD.** / Marco

Change of title to Distributed Systems.

Reasons:

- 1) "Mobile and" is redundant and
- 2) Some students often misinterpret it, by thinking that mobile refers to mobile phones.

Dan and Søren recommend the change.

6. **Application for X-form examination for DS course.** Appendices 6a and 6b.
7. **Replacement of mandatory modules for SD in SAT CS.** / Søren
We have a handful of students who already in their first semester applies for replacement of courses based on courses from their bachelor. When granted a replacement the students have to take other courses on their first semester. The problem is that the students do not have the prerequisites to follow approved electives for SD as they are mainly 3rd semester courses and 1st semester CS courses and some Games courses. Which courses could be relevant to take for these students?
8. **Suggestion to withdraw proposal from SAT CS to Study Board.** Appendix 8a.
9. **AOB:**
