1. READING GUIDE

This report shows the results from the Learning Questionnaire. The questionnaire was distributed to all students on higher educations in Denmark and the data was collected from 24th of October to 18th December 2018.

1.1 INDEXSCORES

All responses are recoded to an indexscore on a scale from 1 to 5, where "Don't know" is coded as missing. Scores above 4 indicates a very good evaluation, while scores below 2,5 indicates a very bad evaluation.

- ≥ 4 : very good evaluation
- 3,5-4: good evaluation
- 2,5-3,5: bad to medium evaluation
- $< 2,5$: very bad evaluation

For some questions, the scale is turned around, so that a high value still indicates a good evaluation. These are indicated by an asterix (*).

1.2 INDICATORS

Only students who have answered all questions in the relevant indicator are included. Therefore, "Don't know"-answers are also excluded from this calculation.

Students who are studying on another institution (eg. exchange program) and students who don't know which education program they are in, are excluded from the calculation of indicators.

2. EDUCATIONAL ENVIRONMENT - MEAN SCORE

- >=4: very good evaluation
- 3,5-4: good evaluation
- 2,5-3,5: bad to medium evaluation
- <2,5: very bad evaluation
